## ACADEMIC PROJECTS <https://github.com/WarmSkin>

---

**Fish-Pocket:** <https://fish-pocket.fly.dev/>

Fish Pocket is a friendly angler's app used to track fishing statistics! As an angler, you can log in with your Google account to access all of this app's features safely and conveniently.

**Jellyfish-Hunting:** <https://spongebob-snake-game.netlify.app>

Jellyfish Hunting is a Snake-Game re-creation with a Spongebob theme! Wild jellyfish spawn randomly one at a time on the map. Spongebob follows the mouse icon when in front of him to catch each jellyfish. Spongebob can move in eight directions with animations and sound effects.

**Tic-Tac-Toe:** <https://warmskin-tic-tac-toe.netlify.app/>

A Tic-Tac-Toe game with a Minions theme. Users can play against each other or with a built-in AI.
